- 2022 - 2023  
NCC EDUCATION
  - Level 4 Diploma in Computing
- 2022 (spring)  
HANDONG UNIVERSITY
  - Operating System Certificate
- 2016 - 2020  
MYANMAR MARITIME UNIVERSITY
  - Bachelor of Marine Electrical System and Electronics (Final Year)

### SKILLS

- PHP, Laravel, NodeJS, Express JS
- React, Next JS, Html, CSS, JS
- AWS, Digital Ocean
- MySQL, MongoDB
- Teamwork
- Time Management
- Project Management

### PROFILE

With over three years of hands-on experience in Laravel and React development, I have contributed significantly to numerous web application projects. Starting as a Junior Web Developer at Lyrion Co Ltd, I progressed to roles such as Web Development Assistant Teacher at MST University before assuming the position of Senior PHP Web Developer at MySol Co. Ltd. My expertise spans frontend and backend development, troubleshooting, and training, establishing me as a versatile and accomplished professional in the field.

### WORK EXPERIENCE

- MySol Co.ltd** 2023 (DEC)- 2024 (MAR)  
Senior PHP Developer
  - Enhanced admin site functionality by adding new features.
  - Developed a meticulous process workflow to ensure smooth execution of development tasks.
  - Ensured adherence to PSR12 coding standard for consistency and readability.
  - Conducted rigorous code reviews with both Myanmar and Japan-based reviewers.
  - Wrote comprehensive test cases covering various scenarios for newly implemented features.
  - Participated in testing across three stages: local, and two staging environments.
  - Focused on CSV generation, database optimization, and refining the payment order process.
- Myanmar ICT Solutions Co.ltd** 2021 (AUG) - 2023 (NOV)  
Full Stack Web Developer
  - Developed, maintained, and ensured seamless operation of projects throughout their lifecycle.
  - Designed the database schema for three projects using SQL Language, ensuring efficient data organization and retrieval.
  - Meticulously prepared SRS documents to outline project objectives and functionalities, ensuring clear project scope.
  - Deployed projects on various servers, including shared hosting environments and cloud platforms such as Digital Ocean and AWS.
  - Actively engaged in code reviews to uphold coding standards and ensure quality assurance.
  - Mentored and trained junior developers to enhance their coding proficiency and project contributions.

# PERSONAL INFORMATION

- Date of Birth - 8.7.1999
- Availability - Immediate
- Expected Salary - 3500 SDG
- Nationality - Myanmar

# LANGUAGES

- Myanmar (Native)
- English (Intermediate)

- Effectively collaborated with designers, team members, clients, and third-party service providers throughout the project lifecycle.
- Developed APIs to support mobile app and frontend development, facilitating seamless integration and communication between the backend systems and client-side applications.
- Authored comprehensive documentation for the applications developed, including user manuals, technical guides, and API documentation.

MST University

2021 (July) - 2021 (AUG)

Web Development Assistant Teacher

- Assisting teachers in preparing materials and resources for web development lessons.
- Providing technical assistance during classroom sessions, including troubleshooting issues and answering student queries.
- Helping NCC Level 4 students with their web development assignments.
- Clarifying concepts, providing guidance on coding practices, and offering feedback on project progress.
- Offering one-on-one support to students who require additional help with coding or understanding assignment requirements.
- Providing assistance with debugging code and troubleshooting technical challenges encountered during project development.
- Reviewing and providing constructive feedback on student assignments, focusing on areas for improvement and best practices.

Lyrion Co.ltd

2021 (MAR) - 2021 (JUNE)

Internship

- Led the development of four projects, overseeing task coordination and deadline adherence.
- Implemented PHP backend functionality and frontend interfaces for all projects
- Conducted code reviews and tested project features for optimal performance.
- Documented project requirements and provided ongoing support to team members.
